me: there's an idea
me: whereby new participants have to fill out some brief form to show that they are witty and competent
me: an invitation-only version of reddit
Andrew: that wouldnt be too hard
Andrew: hmm
me: word
Andrew: ill give you a call
Andrew: sure
me: like 3 or 4 or so
me: come over a bit later
Andrew: I'm going to walk the dog and swing by, that cool?
me: yep
Andrew: are you at home today?
me: and would work well with the online collaborative government project we talked about
me: it could be used to collaborate on projects
me: and we can all sort of test it out
me: you might as well program a social network information-rating site anyway
